Kláro, Petře,

tady by bylo minimálně dobré jim nakolejit naše webovky (sdělit i Robertovi, že tam může být „nápor“). Videokonference není asi třeba, ale sdělit správný link a prohlédnout, co chtějí (ten „unit“) by bylo fajn…můžeme tedy využít kontakt od Vangeliho a s tím pánem se spojit?

Díky!

Ahoj, přeposílám co mi posílá Meta.

Hlavně asi zvaž zda chceš aby okazovali na tu adresu: https://portal.gov.cz/sluzby-verejne-spravy/municipal-election-KAT-676.

A dále zda chcete vidět ten jejich a voter information unit, jak bude vypadat.

Měl bys zájem o nějakou videokonferenci s nimi jak nabízí?

Pro nás je to jen informativní věc.

Subject: Meta election products for the upcoming municipal elections - Voter Information Unit and election reminder

Dear Benedikt,

I hope this message finds you well.

Ahead of the upcoming municipal elections in Czechia, I would like to inform you about the election products Meta intends to deploy, in line with the alignments we reached ahead of previous election rounds.

Promoting voter turnout

- **Voter information unit**

As we've previously done for other EU elections, Meta will display a voter information unit for 24 hours for all Facebook and Instagram users of voting age to redirect people to authoritative information leading up to election day.

- **Election day reminder**

In addition, we intend to run an election reminder on Facebook and Instagram on electon day, following the same approach and format applied in previous rounds.

Both products will link directly to the pages of your institution where official election information is published. Our working assumption is that the destination should be https://portal.gov.cz/sluzby-verejne-spravy/municipal-election-KAT-676. I would be grateful if you could confirm this, or point us to the page you would prefer users to land on.

If it would be helpful, I am happy to walk your team through how the units appear to users and the timing of the rollout. Please let me know if a short call would be useful.

Dear Oskar,
first of all, we would like to thank you for your efforts to inform voters in the Czech Republic through your platforms. We are very grateful for that.

The page we would like users to land on is: https://mv.gov.cz/volby-referenda/volby-do-senatu-a-zastupitelstev-obci-2026-2?chapter=2. This is the official website of the Ministry of the Interior.

I believe a call will not be necessary, as we are familiar with the process from previous elections. Will it be the same as in the past? We would be very happy if you could send us a preview of the final version you intend to deploy on Meta platforms.

Thank you very much.

Kind regards
